

BNC to RCA Video/Power Cable

Heavy Duty For Serious CCTV Installations

in focus...

- ▶ 20GA Cable for Long Runs
- ▶ BNC and/or RCA Connector
- ▶ Video Coaxial Cable and Power Cable
- ▶ Long Lengths of 100, 150, and 200 ft.

Do you have a CCTV installation job that you need to run both power and video cable? If so, these versatile time-saving cables will make quick work of your application. These 20GA cables can make your long runs that other cables can't. On one end is a BNC connector and a power cable, on the other end, RCA male connector. The cables include a BNC male to RCA female and a RCA male to BNC female adapter, so you can use them for various types of connections.
