

Tactical Law Enforcement Video Equipment

Collect Video Evidence On Your Next Operation!

in focus...

- ▶ Built-In 2.4GHZ Receiver
- ▶ 2.37" Color TFT LCD w/ Sunshield
- ▶ Operates Either Wireless or Hard Wired
- ▶ Records Full D1 Resolution 720 x 480

No tactical team mission would be complete without this integrated video package. The CTC1020 has a high resolution 460 line CCD camera with an integrated laser sight that fits onto the front rail post of most service pistols. It can even transmit the images to a wrist worn DVR/Monitor (MPE1020KIT). The CMC5026TH allows you to also record the action just as the operator sees it. Both cameras work with the ultra compact MPE1020KIT DVR for a complete package. The CTC1020 will fit most weapons with a rail mount system.

[MPE1020KIT]

specifications | MPE1020KIT

Shoot frequency	2.4 GHz
Phase Lock Loop	Built-in
Antenna Connector	SMA
Video Display	2.37" RGB 320 x 240 Color TFT LCD
Resolution	D1 720 x 480
Recording Mode	Manual/Event/Loop/Schedule
Water Marker	Frame Counter
Frame Rate	18fps-30fps
Storage	SD Card SDHC 8Gb Max
A/V In	2.5mm A/V Input & 5VDC Out for camera
A/V In	3.5mm A/V Input & 12VDC Out for camera
A/V Output	2.5mm
USB Jack	Mini USB 2.0 High Speed
Power	5VDC 2amp
Video Output	1.0V p-p at 75ohm
Current Consumption	950mA
Battery Specs	2200mA 3.7V (NP-120)
Dimensions	4.2"(W) x 1.7"(H) x 2.4"(D)
Weight	99.5 grams
